1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 1-3, 6-8 and 10-13 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP '195 translation, substantially for the reasons set forth in Paragraph No. 2 of Paper No. 051506, together with the following additional observations. Applicants' response is simply that the reference teaches only liquid polyisobutylenes, which applicants (providing no supporting evidence of the correctness of their position) simply state that "A liquid polyisobutylene is not an elastomer!" The Examiner, however, respectfully must disagree, and further notes that he believes that a liquid polyisobutylene is a low MW polyisobutylene elastomer, if not at all temperatures then certainly at least at a certain range of lower temperatures. It is also noted that it has the same chemical structure as solid polyisobutylene, and finally it is also noted that applicants' specification is completely silent regarding this issue.

3. Claims 5,9,14,15 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP '195 translation, and for claims 17 and 19 in view of EP '053, substantially for the reasons set forth in Paragraph No. 3 of Paper No. 05. The Examiner has nothing additional to add besides what was set forth in the preceeding paragraph regarding "liquid polyisobutylene elastomers", as he again believes that the **prima facie** case of record has not been rebutted.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1771

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
